TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, TypeScript, PHP

Frameworks & Libraries: React, Next.js, Laravel, Inertia.js, Tailwind CSS, shadcn/ui, GSAP, Motion

Databases: MySQL, PostgreSQL, Redis (Upstash), SQLite

Tools & Platforms: Git, GitHub, VS Code, Vercel, Railway, Jira, Sitebulb, Figma, WordPress / Elementor, Framer

AI Tools: ChatGPT, Claude, Gemini, Copilot, Cursor

EXPERIENCE

Techstacks | Frontend Intern | January 2026 – May 2026

Worked on client projects including Howden, WD-40, PNPTI, YouGotServed, and AltTutor.

- Improved website accessibility by identifying issues through audits and implementing fixes.
- Fixed UI issues, frontend bugs, and usability problems across web pages and features.
- Supported content updates, translation changes, and interactive feature improvements.

PROJECTS

Personal Portfolio Website — emmansales.dev

Solo Developer | Personal Project

- Built an interactive pixel-art portfolio using Next.js and TypeScript.
- Developed interactive features including an AI-powered Q&A with daily limits, a music player and sound effect system using Howler.js, star messages, and a breakout game using GitHub contribution data.
- Implemented a colorblind-friendly theme and animation toggle to improve accessibility despite the visually rich design.
- Created hand-drawn pixel art sprites using Piskel and Aseprite.
- Deployed on Vercel with Upstash Redis for persistent data storage.

Technologies: Next.js, TypeScript, Tailwind CSS, Upstash Redis, Howler.js, Vercel

Web-Based Multi-Branch Inventory Management and Sales Recording System for Ramen Dreams

Fullstack Developer | Academic Capstone Project

- Implemented role-based access control with branch-based restrictions.
- Built dashboards for low stock, expiry monitoring, inventory health, sales trends, and best-seller reporting.
- Developed inventory and sales workflows with real-time stock deduction, stock adjustments, void handling, and transfer tracking.
- Added audit logs, filters, and printable reports for inventory and sales records.

Technologies: Laravel, React, Inertia.js, MySQL, Tailwind CSS, shadcn/ui, Railway

EDUCATION

Nueva Ecija University of Science and Technology | 2022 – June 2026

Bachelor of Science in Information Technology | Major in Web Systems Technology
